

## Online Seminar 15.10.-03.12.2020: Pregnant mare and foal

The online continuing education course program covers important aspects of the pregnant mare and the foal. The live online seminars will take place in autumn 2020 on Thursdays at 1 pm (Central european time).

The aim of the "Lunch and Learn" seminar is to promote professional discussions and cooperation in veterinary practices and clinics.

Seven internationally recognized specialists in equine reproduction and clinical research will present 45 min live online seminars in advanced gynaecology and neonatology with lots of pictures, videos and clinical cases.

Participants can subsequently join a 15 min live Q&A session with internationally recognized specialists in equine reproduction.

The seminars are recorded and available to course participants for four weeks.

### Course fee

(for all seven seminars of the online course program „Pregnant mare and foal“)

GPM-/BEVA/SIVE-/AAEP-/AVA-members: 260 Euro (plus VAT)  
Non members: 350 Euro (plus VAT)

The access link to the live stream and the on-demand recording will be made available upon payment for a period of four weeks.

Registration: [www.reprotraining.de](http://www.reprotraining.de)
