

Canine Transcervical Insemination (TCI) Seminar

Date:
December 08, 2022

Location:
University of Veterinary Medicine Hannover, Germany

Seminar content

This is a theoretical and practical seminar designed for the veterinarian to learn and refine the art of transcervical insemination. A personal teaching environment coupled with the latest endoscopic equipment makes this an essential course for the development of the skills necessary to perform endoscopy in the veterinary practice. **All delegates can practice transcervical insemination on training models.** They return home with all the needed tips, tricks, and skills to start training TCI in their veterinary practice.

Lecturer

Prof. Dr. Sandra Goericke-Pesch, Dipl. ECAR, Associate Professor in Veterinary Reproduction and Obstetrics

- European Boarded Specialist in Reproduction
- German Specialized Veterinarian in Breeding Hygiene and Biotechnology of Reproduction

*Reproductive Unit - Clinic for Small Animals
University of Veterinary Medicine Hannover, Foundation*

Venue

University of Veterinary Medicine Hannover
Reproductive Unit - Clinic for Small Animals
Buenteweg 15, 30559 Hannover, Germany
